

POSTER PRESENTATION

POSTER PRESENTATION

RULE BOOK

Organized By

Dept. of Electrical & Electronic Engineering
Sylhet Engineering College

INTRODUCTION

Posters are often used to share information and are an important part of many conferences, seminars and exhibitions. They may be used to present quite complex material, and so it is important that the information on them is well laid out, legible and attractively presented.

The main idea of Poster Presentation should include any of the following sections:

- **Universal topics**

EVENT RULES

- Only university students are eligible to participate in this segment
- Each team can contain maximum 3 members.
- Topic of poster should be given section
- Participants have to submit a rough sketch of poster briefly discussing the subject of the poster through email
- From the submitted rough sketch top 40 teams will be called for their final poster presentation in front of audience and judges
- The poster must contain a title.
- There is no need to use the logo of "TECHNOVENTURE 3.0"
- Only the full name of the person or persons of a team should be included in the poster.
- Poster size should be 2.5' X 4' (width X height).
- Poster material: PVC banner
- Purpose and objective of the poster
- Description of the problem and target outcomes (should not be more than three to five sentences - can be depicted in a logical model).
- At least one graphic (can be photograph) illustrating the program's process, who is involved or how to program works
- Lessons learned so far (if the program is currently underway)
- Implications for future action (where will they lead?)
- Source of funding for the program
- Participants can use their thesis topic as the subject of poster
- Sources and references of the data should be provided in the poster
- The competition will run for 5 hours
- The posters will be hanged according to the registration serial
- All the member/members of the team must be present during the judgment
